

let's make it happen.

A good first impression starts with a smile.
Let's make yours the best it can be.

Whatever makes you smile, whatever brings you joy, don't let your teeth hold you back. Ask your doctor if ClearCorrect is right for you, and start smiling with confidence. **Express your joy—to the fullest.**

talk to your doctor today.

The ClearCorrect System is indicated for the treatment of tooth malocclusion in patients with permanent dentition (i.e. all second molars). The ClearCorrect System positions teeth by way of continuous gentle force.

clearcorrect

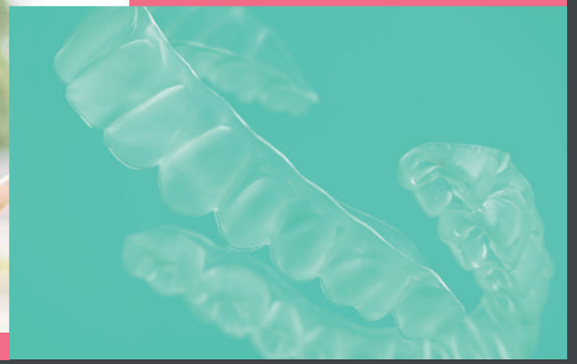

happier. healthier. smilier.

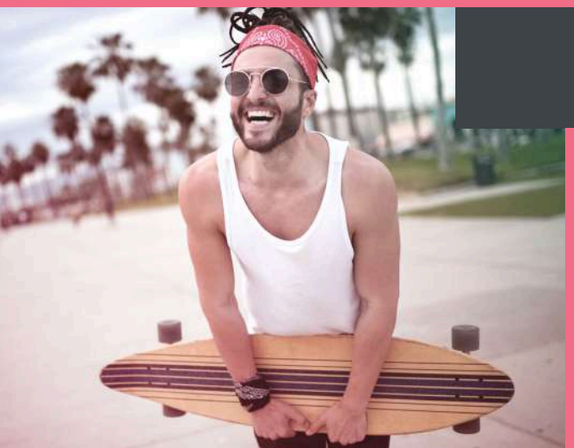

why choose clear aligners?

If you're not completely happy with your smile, but aren't a big fan of metal braces, clear aligners might be just the thing for you.

COMFORTABLE[1] REMOVABLE NEARLY INVISIBLE

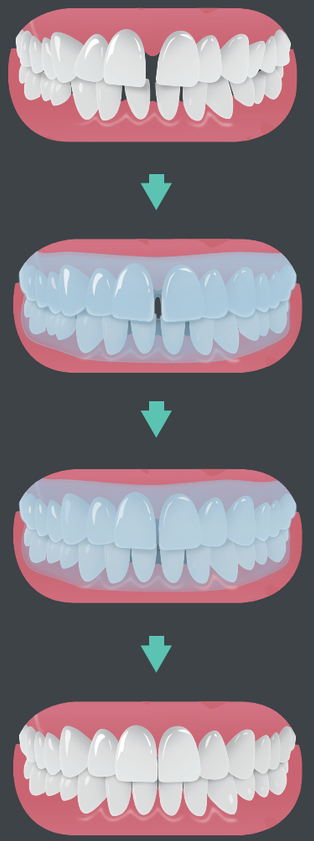

how invisible are they? see for yourself.

how do they work?

Based on your doctor's prescription, we use advanced technology to create custom clear aligners that apply targeted pressure to your teeth, slowly moving them into alignment[2].

what can they do for me?

Straighter teeth don't just look better; they work better too. Poorly-aligned teeth can interfere with bite function, can wear out faster, and are more prone to cavities[3]. And once you've got a smile you love, you may just find you can't help but show it off.

MERCEDES F.

I smile a lot more and a lot bigger.

My favorite thing about ClearCorrect was no one knew I was doing it, and everybody complimented my smile while I was in treatment.

"they've been so easy and wonderful to use."

GERALD B.

CONNIE H.

you just pop 'em in and pop 'em out."

I'm a professional, so, going out and meeting clients and everything—you just want to put on your best face, and be able to give them your best smile...I was so glad I did it. It just makes me feel better.

don't wait. ask your doctor what ClearCorrect can do for you.
